

To whom it may concern,

I bought Carpet CPR a few months ago not really thinking it would be any different than any other spray carpet cleaner. When I first used it I could not believe how well it worked. I have 2 cats and 3 dogs so you know I needed something good and I got it in Carpet CPR.

My problem now is I cannot find it locally in the Dallas area so I must buy it over the internet. This is the only product I have found that gets rid of the stain and does not just spread it around on light carpet. I love it but would love to get it locally. You have a great product and I will probably try more of them in the future

Thank you for Carpet CPR. It's the best.

Sincerely

*Mary F. [unclear]*
