Dear Leather CPR,

Recently I tried your new product that was supposed to be great for cleaning carpet, Carpet CPR it's called.

Of course, I didn't think much of it at first, thinking it was like all the others we had tried, like Stanley Steamer's cleaner, Oxi Clean spot remover and others. After a stain was left on my office carpet by our aging Bichon over a year ago, we had thought a new rug was our only option.

However, before spending hundreds for carpet or a new rug, my wife suggested we try the Carpet CPR on this 1 year old "pizza size" stain.

Initially, it just looked like a large wet stain after we followed the directions, so we weren't expecting much of a change. Boy, what a surprise after the spot dried...you can't tell it was ever there!!! This stuff is awesome. We have told our friends about it but don't know where to find it in South Florida area. Please let us know where to buy some...our bottle was from a friend in California.

Sincerely, Bobby Tucker
