Subject: Great Product!

To Whom It May Concern:

I recently tried your product, Granite CPR. After using other granite cleaners and polishes (which worked okay), I was surprised Granite CPR's ease of use and the beautiful results. I couldn't believe one product could really clean AND polish! I did some research and learned that you also have a product called Leather CPR. I am going to buy it and I just know I'm going to have the same great results.

Thanks for a great product!

Mari Ma
