Subject: Granite CPR

I bought tubes of your Granite CPR from our local Costco store, when there was a temporary display set up. I have used up what I have and I love your product. I contacted Costco to ask if they were now stocking the Granite CPR, and they said that it was a roadshow that came through the store, and the item was no longer available there.

Can you please tell me how I may purchase more of the Granite CPR?

Thank you,
Martha D
