500****★★★★★ Skeptic turned believer**

I bought Leather CPR because I saw it advertised on TV. I HATE cleaning my tack; the glycerine soaps & conditioners I've used in the past have been too time consuming & messy. So I tried Leather CPR for the first time & LOVED it! It's easy & quick to use & my bridle & saddle have never looked better! The product does all the work for you.

**★★★★★ I'm a believer!**

I always thought that you had to clean first, then condition. But a friend gave me a sample of this so I gave it a try. I'm not religious about cleaning my tack after every ride so I didn't expect squeaky clean. But that is just what I got. It got my tack cleaner than anything else I've ever used and the leather felt soft and supple. I won't use anything else.

**★★★★★ Best leather cleaner & conditioner ever!**

You can rid your tack room and trunk of ALL other products! No more messy saddle soaps or foams. This product is fabulous; my daughter is now cleaning her own tack again! Hangs nicely, no drips. Easy to use and refill. One step process, no need for conditioner because it's built right in. Highly recommend it. Once you've tried it you won't use anything else.
