Love Love LOVE this stuff!

I can't describe this any other way except to say I'm hooked and it's the best leather cleaner/conditioner I've used in a long time! It really is fast and easy to use and leaves leather soft and clean. I used to use _____ for this purpose but it often leaves a white residue behind. With Leather CPR this does not happen. I have used it for general cleaning, to restore old tack that has become dry while in storage and to condition tack that was used in heavy rain so it would not dry and crack. It even removed rain spots from my saddle! Try it! I have all the other boarders in my barn in love with this stuff, too!
