Dear CPR,

This is a letter regarding Leather CPR and Carpet CPR both of which I am delighted with. I probably have a half dozen leather cleaning agents in my cabinet. Since I have used your company's leather cleaner for a year plus, I am very happy with the results. (I have cleaned the 14 leather cushions of our built-in sofa!). Leather CPR is by a large margin the BEST of my collection. I'll toss the others!

Carpet CPR perfectly cleaned all of the spots that I have used it on, including cat regurgitation and cranberry stains. All spots have come out totally with no carpet fabric fading.

Anyway, you can see that I am completely satisfied with these items.

P.S. Leather CPR and Carpet CPR are neat names. They have a good ring to them.
