The leather cleaner-conditioner is the best that I have ever used. It works wonderfully on our built-in sofa cushions (14 cushions) and our leather recliner. I have half-a-dozen leather cleaners here; guess I can toss all except GPR's! I showed friends the results - very impressed.

The Carpet GPR, (like the name - GPR), was also a success - old cats regurgitate too much!

Respectfully & with warm regards,

Alice (aka)
