Leather CPR
7643 San Fernando Way
Burbank, CA 91505

I wanted to write the folks at CPR and tell them what a terrific product you make. Your Leather product is outstanding! We bought a small bottle right after selecting our new leather furniture and applied it to the leather and the feel of the leather was out of this world. We wanted to show off our new furniture to our friends, and they could not get over how soft the leather was.

We use the CPR product about once a month to keep that shine and softness on the furniture. We even put it on our new Honda leather seats and what a difference! I put it on just about everything leather that we own to include belts, shoes, wallets, leather purses etc.

This is a quality product that we really enjoy.

All The Best
