Subject: Use CPR product

Attention

My neighbor gave me a jar of your CPR leather cleaner for use on a beautiful old leather couch I acquired from friends that was faded and looked pretty worn. I used a hand brush working the CPR in well, let it absorb and wiped off excess. It turned out beautiful, your product left the leather soft and pliable, not sticky like some other products I have used in the past.

It is really nice to use a product that really works!!!

Sincerely Yours,

Robert G. S
